Bellata Community Session -Planned Power Outages

Newell Highway Upgrade: heavy duty pavement upgrades, Narrabri to Moree

As part of the next stage of construction, a series of planned power outages will be required in the Bellata township commencing from February 2023. To complete the works safely, it is anticipated that up to 18 planned outages will be required from early February until mid-April.

Transport for NSW, in partnership with lead contractor Fulton Hogan, is hosting a community information session to discuss these power outages and how we can best work together to plan and minimise impacts to residents and businesses. Essential Energy will also provide notification closer to the outage dates.

Come along and chat to our project team to find out more - see event details over the page.

Bellata Community Session

Date: Tuesday 24 January

Time: Drop-in between 4pm and 6pm

Location: Bellata Golf Club, 80 Berrigal Road
