

Transport Access Program

Beecroft Station Upgrade

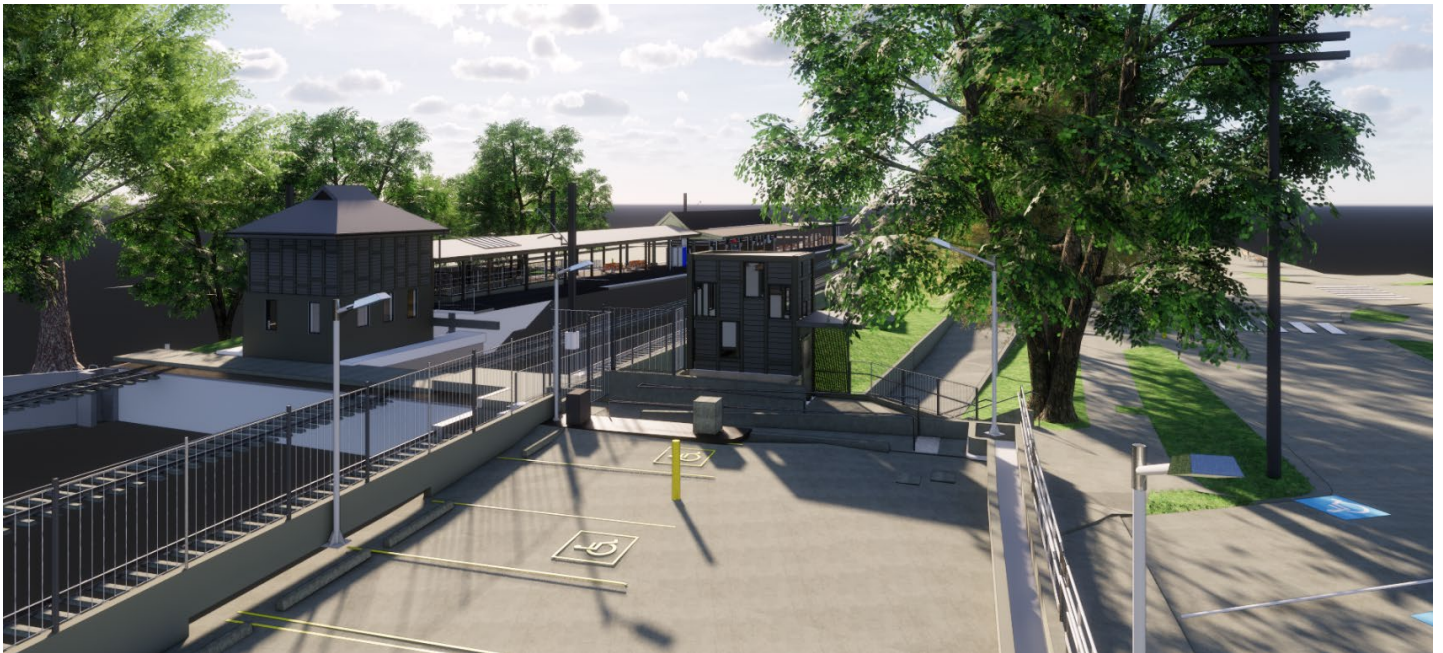

Project Update

September 2020

Project overview

The Beecroft Station Upgrade is part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure.

Transport for NSW is upgrading Beecroft Station to make it easier for everyone to access, including those with a disability, limited mobility, parents/carers with prams and customers with luggage.

Artist's impression of new lift location in relation to the station, subject to detailed design

Upcoming site establishment

From Monday 7 September 2020, site establishment activities will start. This work will continue throughout August.

Activities will include:

- installing site sheds (at the site compound location within Sutherland Road commuter car park)
- installing fencing and hoarding (at all work areas including around the lift work areas and Sutherland Road commuter car park site compound)
- relocating service cables within the station.

Equipment to be used includes a small drilling rig, vacuum excavation truck, surveying equipment, delivery trucks, truck-mounted crane, power and hand tools.

Temporary commuter car park changes

From 7am Monday 7 September 2020 until November 2021, approximately 16 spaces will be used to allow upgrade work within the Sutherland Road commuter car park (north-eastern corner).

Two disabled access parking spaces will be temporarily relocated from the Wongala Crescent commuter car park to the Sutherland Road commuter car park.

Signs will be installed to notify commuters of the upcoming changes.

Alternative parking is available to commuters in the remaining space of both commuter car parks.

Untimed parking is also available on nearby streets.

Temporary traffic, access and parking changes

During the upgrade, temporary traffic and access changes for both pedestrians and motorists may occur around Beecroft Station.

Changes may include footpath closures, single lane closures and/or temporary parking removal at the either commuter car park (to accommodate large vehicles undertaking construction work including the removal of rock/spoil from the site).

Traffic control and signage will be in place to help pedestrians and motorists with all temporary changes.

Design update

Following extensive community and stakeholder consultation, the upgrade design has been revised to retain the existing ramp access from Wongala Crescent to the station underpass, by shifting the lift closer to the commuter car park.

Other revisions include:

- addition of a platform canopy to the east of the existing station building to provide covered access to the Boarding Assistance Zones
- retention of the taxi zone in its original location
- removal of a formalised kiss and ride on Wongala Crescent, as sufficient 'no parking' zones are currently operational, and there is insufficient room for buses to turn from Hannah Street.

Construction hours

Standard construction hours are **7am to 6pm Monday to Friday** and **8am to 1pm on Saturdays**.

For the safety of staff, rail customers and the community, some work will be completed outside standard construction hours. Nearby residents and businesses will be notified before out of hours work takes place.

For more information call **1800 684 490**.

Email projects@transport.nsw.gov.au or visit transport.nsw.gov.au/beecroft

For urgent enquiries or complaints regarding construction activities, please call 24 hours **1800 775 465**

Keeping the community informed

The community will be kept informed with regular project notifications and information via the project website: transport.nsw.gov.au/beecroft.

For further information on the project please call the Project Infoline on **1800 684 490** or email projects@transport.nsw.gov.au.

For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.
