

# Transport Access Program

## Bexley North Station Upgrade

Project update

January 2021

Image: Artist's impression of Bexley North Station Upgrade including the upgraded Commuter Car Park. Subject to detailed design.

Transport for NSW is upgrading Bexley North Station to make it easier for everyone to access, including people with a disability or limited mobility, parents/carers with prams, and customers with luggage.

### Upcoming work

Construction of Bexley North Station Upgrade is progressing well with installation of temporary stairs completed in December. Construction activities will continue throughout January and include:

- excavation and services installation on the platform and within the commuter car park
- construction of the lift, permanent stairs and footings on the platform
- refurbishment of the platform building including converting the male toilet into a family accessible toilet
- removal of the payphone and adjustments to services on the platform
- construction of the new station access ramp and retaining walls in the commuter car park
- installation of new services in the rail corridor (east of Bexley Road)
- delivery of materials and equipment to the commuter car park temporary work area.

Equipment to be used includes delivery trucks, concrete trucks and pumps, excavators, rollers, small mobile cranes, power and hand tools.

For urgent enquiries or complaints regarding construction activities, please call 24 hours 1800 775 465

## Night work from 11 to 15 January 2021

Night work will be carried out from **7pm to 7am each night** between **Monday 11 January and Friday 15 January 2021**. The work will involve the removal and delivery of construction materials to and from the platform. Some of this work will take place in the rail corridor and needs to be carried out during a scheduled Sydney Trains track work period when trains aren't running.

This work will be audible at times. Wherever possible, measures to reduce noise will be implemented including turning off vehicles and equipment when not in use, monitoring noise and using non-tonal reversing beepers.

We thank you for your patience during this important work.

Please visit [www.transportnsw.info](http://www.transportnsw.info) or call **131 500** for up-to-date information regarding service updates and replacement buses during this time.

## Parking and access changes on Kingsgrove Avenue

There will be ongoing temporary parking and access changes on Kingsgrove Avenue, west of the commuter car park **until late 2021** to create a safe working area and to allow the upgrade of the commuter car park, including:

- temporary closure of up to 18 car parking spaces along the rail corridor boundary fence
- temporary lane width reduction.

Please continue to follow the direction of signage including reduced speed limits while the temporary changes are in place on Kingsgrove Avenue (westbound). Pedestrian access will be maintained to Bexley Road and Bexley North Station past the temporary work area. Please allow extra travel time.

## Temporary closure of Kingsgrove Avenue Commuter Car Park

The Kingsgrove Avenue Commuter Car Park is temporarily closed **until late 2021** to allow for construction of the access ramp and widened car park. Parking will remain available for commuters on Kingsgrove Avenue (west).

Please continue to access the station via Kingsgrove Avenue and Bexley Road footpath. Please allow additional travel time. Signage will be in place to help pedestrians and motorists with the changes.

## Changes to station toilets

To enable refurbishment of the station toilets, **the existing male toilet in the station building will be temporarily closed until May 2021**. The existing female toilet will be operating as a unisex toilet during this time. Signage has been installed to help customers with these temporary changes.

When complete, the station will feature a new family accessible toilet and a unisex ambulant toilet.

*Above: A temporary walkway and access stairs were successfully installed at Bexley North Station during December. Customers will access the station using the temporary stairs until mid-2021.*

## Construction hours

To support the construction industry and continue the delivery of important infrastructure, the NSW Government has introduced new rules allowing construction sites to operate on weekends and public holidays.

**Standard construction hours are from 7am to 6pm every day, including public holidays.** These changes have been made to facilitate physical distancing on construction sites and support the health and wellbeing of workers.

We understand extending construction hours to include weekends and public holidays may cause disruption, but all efforts will be made to minimise impacts where possible and ensure strict environmental conditions relating to noise, vibration and dust management are adhered to.
