

## Transport Access Program

### Denistone Station Upgrade

Transport for NSW | December 2022

The Transport Access Program will deliver a better experience for Denistone Station customers, with an upgraded station accessible to all, including those with a disability or limited mobility, parents and carers with prams and customers with luggage.

#### Works recently completed

The Denistone team successfully completed concrete pours of the two lift shafts and installed new utility infrastructure for station power and communication supply along the platform.

We also commenced work on the new family accessible bathroom.

Transport for NSW acknowledges the Wallumattagal people as the traditional owners and custodians of this land and pays respect to Elders past and present.

Denistone Station tidy up works – October 2022

#### December – January work:

- Finish the brickwork around both lifts & remove scaffolding
- Install new utility infrastructure for station power and communication supply along Gordon Crescent side entrance, platform and garden beds.
- Investigate and relocate services.
- Upgrade stormwater pipework throughout the station including work on West Parade.
- Construct new toilet facilities and work on the waiting room on Platforms 3 and 4.
- Upgrade Gordon Crescent carpark, including installing an accessible car space.

## Our work schedule

Our work hours are between 7am and 6pm Monday to Friday and 8am to 1pm on Saturdays.

There will be no work on public holidays and we will not work from **Friday 23 December 2022 to Sunday 8 January 2023**, to help the community enjoy an uninterrupted holiday break.

## Keeping you informed

You can read more about our construction activities and updates on our website at [transport.nsw.gov.au/denistone](https://transport.nsw.gov.au/denistone).

To subscribe for email or SMS updates, visit the webpage above, or email us at [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au).

We are aiming to have the station upgrade complete by late 2023. Some of our works can only be done during scheduled Sydney Trains track work periods, when trains are not running.

Unfortunately, much of our planned weekend and night works have been delayed due to industrial action. We will ensure to keep the community updated with any changes.

## Construction holiday break

We thank you for your ongoing patience and understanding as we finish this important work. With the holiday season upon us, to give the community and our workers a break, we will not be doing any work from **Friday 23 December 2022 to Sunday 8 January 2023**. We hope you enjoy the holiday break.

### WANT TO STAY UPDATED?

If you would like to receive further information and updates you can join our distribution list. Simply call or email us.

If you need help understanding this information, please contact the Translating and Interpreting Service on 131 450 and ask them to call us on 1800 684 490.

1800 684 490 (during business hours)

## How will our work affect you?

We understand that our work may be noisy at times. We will do everything to lessen the disturbance, including turning off vehicles and equipment when not in use and using non-tonal reversing beepers.

Temporary changes may be in place during our work hours to safely detour people around the work zone.

## Carparking and facilities

The Kinson Crescent car park is partially closed and will be used by our project team for the duration of the project.

For the Gordon Crescent Car park, five car parking spaces will be occupied for three days at a time in December for construction work. The whole carpark will be closed in January, during school holidays, to complete works.

While the family accessible toilet is being built the female toilets are closed. Male toilets have been converted to unisex on the opposite side of the station building.

The waiting room on platforms 3 and 4 will also be closed until the waiting room work is complete.

We appreciate your patience while we complete the family accessible toilet and the waiting room upgrade.
