

Night work on the Newell Highway from Sunday 24 September 2023

Narrabri to Moree Pavement Upgrade

September 2023

Transport for NSW acknowledges the Gomilaroi people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Lead contractor Fulton Hogan is carrying out ongoing construction work on the Newell Highway in Section 3 at Bellata and Section 5 at Moree as part of the Newell Highway Heavy Duty Pavement Upgrade (Narrabri to Moree) project.

We have included a map to show location of the works.

What work are we doing?

Pavement works and intersection improvements will be carried out at night to minimise traffic disruptions.

When and where we'll be working

Works will be carried out between **Sunday 25 September** and **Friday, 20 October** in the following locations:

-Bellata on the Newell Highway at the intersections with Millie Road as well as the BP service station entrances for up to **six nights**.

-Halls Creek Bridge, south of Moree between the Burrington Road intersection and Moree Airport for **seven nights**.

Working hours will be from **6 pm to 7 am**, weather permitting.

What will this mean for you?

The work will involve use of plant and machinery that may create noise and light. Noise monitors will be in place to ensure impacts are minimal.

Fulton Hogan will ensure any lighting towers are oriented to minimise impacts on residents and motorists using the Newell Highway and that any machinery is turned off when not in use.

Residents and businesses within the work area will be directly consulted about the planned work activities at least five days before work commences.

Traffic management

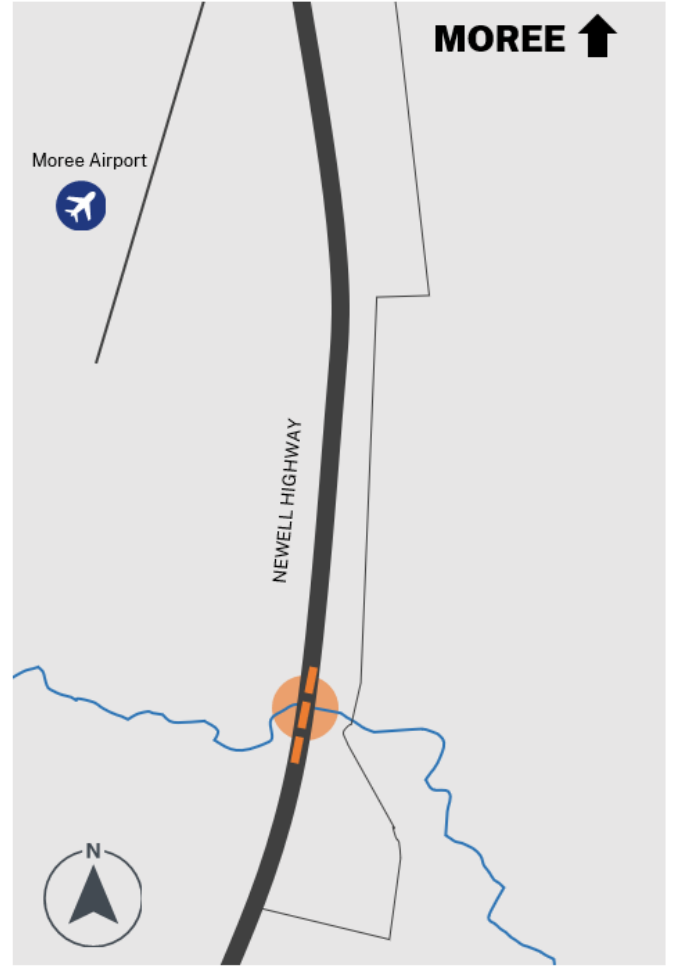

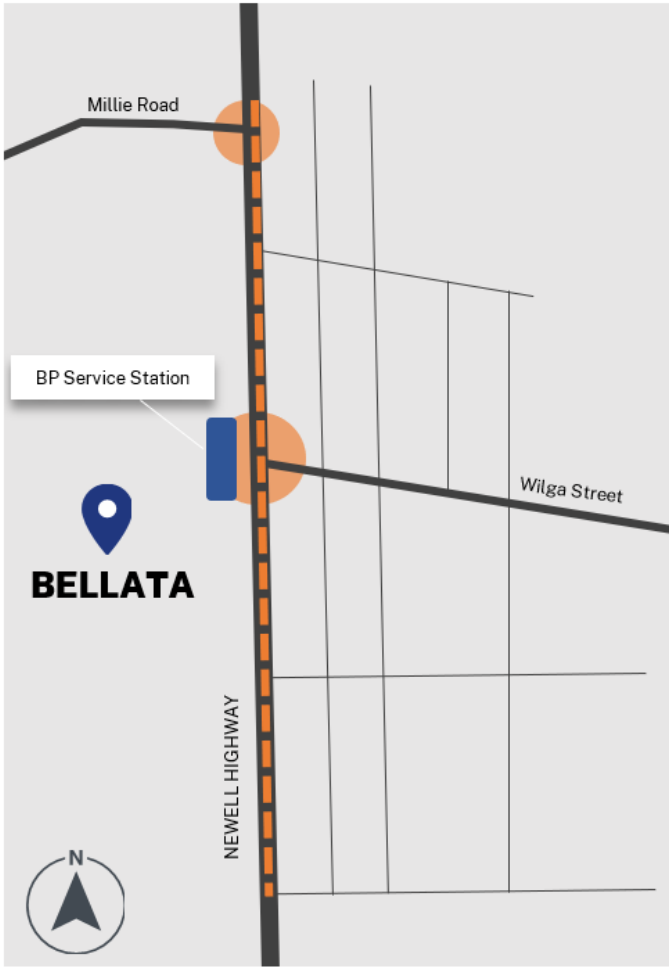

The work will be carried out under existing traffic control conditions to keep the work zone safe, which includes lane closures, intermittent stopping and a reduced speed limit of 40km/h will be in place during work hours.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call **132 701**, visit **livetraffic.com** or download the **Live Traffic NSW App**.
