

# Newell Highway intersection upgrade work at Tapscott Road south of Moree

## Narrabri to Moree Heavy Duty Pavement Upgrade

January 2024

Australian Government

Transport for NSW acknowledges the Aboriginal people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The NSW and Australian Governments are jointly funding the \$261.17 million Heavy Duty Pavement Upgrade of the Newell Highway between Narrabri and Moree under the Newell Highway Upgrade program.

### What work are we doing?

Intersection upgrade work will be carried out at the Tapscott Road and Newell Highway intersection south of Moree.

### When and where we'll be working

Work will be carried out approximately 8 kilometres south of Moree at Tapscott Road from **7am to 6pm** from **Tuesday 16 January** and will be completed by **Thursday 22 February 2024**, weather permitting.

The temporary closure at the intersection of Burrington Road and the Newell Highway which was scheduled for November 2023 has been delayed until late February 2024.

### Traffic changes

Access to Tapscott Road from the Newell Highway will be temporarily closed from **Tuesday 16 January** to **Thursday 22 February 2024**. A detour will be in place via Burrington Road (see map below).

Work on the Newell Highway will be carried out under traffic control conditions to keep the work zone safe, which includes reduced speed limits, lane closures and intermittent stopping.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call **132 701**, visit **livetraffic.com** or download the **Live Traffic NSW App**.

### Managing our impacts

During the Tapscott Road intersection closure, access to Tapscott Road will be via Burrington Road, approximately 1.8 kilometres North of the intersection on the Newell Highway.

Residents and businesses within the work area will be directly consulted about the planned work activities at least five days before work commences.

## Location of work area, alternate route during intersection closure
